## SUMMARY

I am an innovative and highly motivated B-Tech graduate in Computer Science (2023) with a solid foundation in MERN Stack Development. Proficient in MongoDB, Express.js, React.js, and Node.js, I have a strong analytical mindset and exceptional problem-solving skills. I continuously seek growth and am driven to contribute to projects that challenge technology and deliver meaningful value.

## EDUCATION

### B-Tech

Sagar Institute of Research and Technology

08/2019 - 05/2023   Bhopal, M.P.

## KEY ACHIEVEMENTS

- Code Quality Enhancement**  
Improved code quality by 20% during code reuse.
- Performance Optimization**  
Boosted server-side application speed by 35% with Node.js.
- API Integrations**  
Integrated 50+ APIs in MERN applications to enhance functionality.
- Frontend Optimization**  
Reduced page load time by 30% through efficient React.js coding.

## EXPERIENCE

### Node js Intern

Afido Tech   12/2023 - 03/2024   India

- Developed and maintained server-side applications using Node.js and Express.js.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic.
- Participated in code reviews and contributed to improving the overall code quality.

## LANGUAGES

English   Native   Hindi   Native

## SKILLS

React.js	Node.js	Express.js
Mongo-Db	SQL	GitHub
CSS	Java-script	Power BI
MSWord		Excel

## PROJECTS

### Ecommerce Website

- Ecommerce Website
- Developed an Ecommerce Website by the help of MERN Stack.
  - The Frontend is built with React, and the Backend uses Node.js with Express.js.
  - MongoDB is implemented as the database for strong product and user information.

### Employee Management System

- Employee Management System
- Developed an employee management site using Node.js, Express.js, and MongoDB.
  - Features include efficient handling of employee records with options for insertion, deletion, and updating.

### Blood Bank Management System

- Blood Bank Management System
- Designed and implemented a system to facilitate user-friendly blood donation registration and retrieval processes.
  - Enabled seamless communication between donors and recipients.

### AirBnb Clone

- AirBnb Clone
- Created a simplified clone of the Airbnb platform using HTML and CSS.
  - Provided users with an intuitive experience to explore listings, view property details, and interact with filters.

## PASSIONS

- Interests**
- Interests include cricket, travelling, and gaming.
